

REHUBIC Help

Put Ceramic on Walls or Floors in Elevation Mode

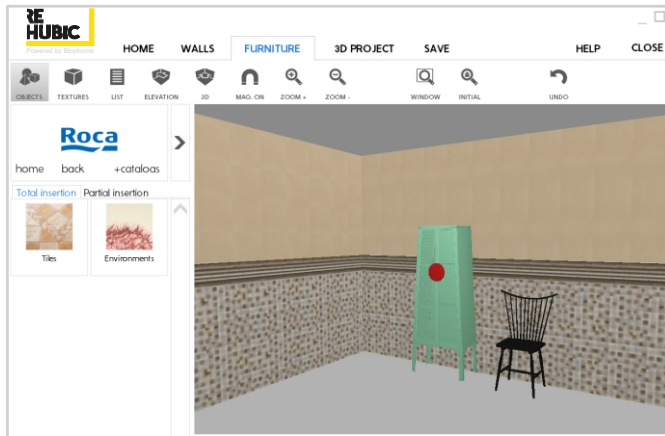

Ceramic Environments

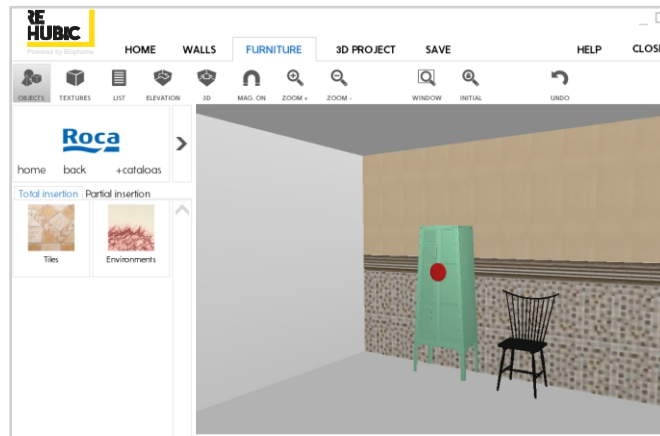

If you click on this box, the ceramic environment will be applied to all the walls

The ceramic environment can also be saved to be used later on
State the name to access the ceramic environment object library

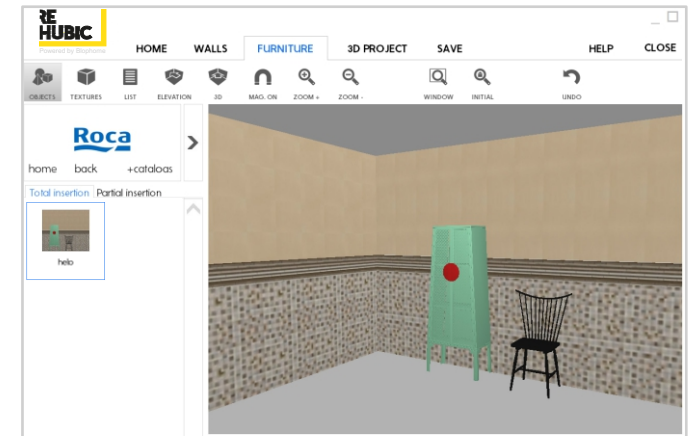

If you just want to cover one wall and not save the environment, click on Accept to leave the elevation work mode

Environment applied to all the walls of the room

Environment applied to just one wall

Environment saved in the ceramic object library
